## Description

The HYW4000P is a new and extremely rugged petrol pressure washer, made by Hyundai. It has a powerful 14.0hp IC420 Hyundai engine, which helps to drive 15 litres of water per minute through the professionally classified Italian-made AR pump. Made by Annovi Reverberi, the pump has a powerful flow rate which helps to deliver a maximum output of nearly 4000psi, meaning that the washer has an extremely high quality clean and finish.

Designed and built for a professional application, the largest of all current Hyundai pressure washers is mounted on a solid base, and has large wheels which are well-balanced and pivot nicely meaning that this 63kg trolley-built unit is very easily transported around. The large 15m hose and durable lance are included as standard and both have quick release fittings and connections for fast, easy change of attachments.

As well as the standard 4-piece nozzle set, the pressure washer also comes with a turbo nozzle, rated to a maximum of 4000psi. This is a very effective tool for improving cleaning efficiency and helps to drive even more pressure from the end of the lance, and shorten the time it takes to clean by as much as 25%.

## Features

- Heavy-duty Annovi Reverberi (AR) pump for professional use
- A high flow rate of 15 litres of water per minute
- Powerful 14.0hp Hyundai 4-stroke engine helping to produce a maximum output of 4000psi
- Turbo nozzle for high-powered cleaning and quality finish
- Rugged frame and solid, well-balanced wheel base
- Thermal relief valve to help regulate the temperature of the pump

## Specification

Field	Detail
Model Code	HYW4000P
Maximum Pressure Bar/psi	275 bar
Engine Brand	Hyundai
Water Flow Ltr/hr	900 L/h
Engine HP	14hp
Engine Type	HY420
Suction - Yes/No	No
Fuel	Petrol
Motor Power Watts	10400
Trolley Included	yes
Wheel Kit	yes
Pump type	Triplex Italian A.R.
Weight (Kgs)	63
